School has been underway several weeks now and all the new safety patrol boys are fast learning their jobs. This is a big help to those of us taking our children to school in cars, as apparently most everyone in Elba does nowadays, judg ing by the great number of cars at the elementary and middle schools each morning. The first day or so mothers and daddys were howling to us about the traffic congestion at the schools, but the problem seems to have solved itself. Only once or twice have I wanted to get out and wake up the patrol boys - I only hope that they haven't wanted to wake me up more times than that!

Again we have a lot of people talking about City Hall. During the past twelve months, we at The Elba Clipper have tried to know everything that went on at City Hall, and still don't have the answers to some of the problems that occur from time to time. Some things are done that we agree with and other things that we don't agree with. Sometimes we are right and sometimes we are proven wrong. What I really want to say is. I get a bit flustered at some of the wild proposals sometimes heard from other citizens who don't have the faintest idea what goes on within our casy government except that the police give parking tickets and the mailman this newspaper will attend a council meeting, but most of the time, it is just city officials and a representative of this newspaper. I would truly like to see our many interested citizens attend these meetings and find out first hand just how their tax money is being spent. I realize there are a lot of things to occupy peoples' time, but city government affects us all, and often an outside opinion at the right time will result in actions that are beneficial to all of us. At other imes, just knowing the details behind a decision will result in a better understanding of many actions. Heck, mayorelect Sam Sawyer almost always furnishes a box of candy for officials and visitors to nibble on during the meeting also, so bring the whole family!

President Ford is not getting a lot of flap over his plan for bringing home the draft dodgers. Everyone is too busy ussing about his full pardon for former President Nixon! I don't know what all goes on in Washington, but it makes me wonder if possibly the sudden pardon of Nixon was designed to do just that - get our minds off the draft dodgers - politics move in funny ways sometimes.

have not been bored at halftime. The Elba Tiger Marching Band has put on almost perfect shows at both games! They look sharp in their new uniforms, and the marching and play-ing is excellent. Even the "other side" goes wild when our band blasts off with their foot-stomping version of Dixie. All this makes us feel OK about the thousands of dollars donated last year during Band Day. The band received less than \$10,000 in donations, but the new uniforms cost over \$10,974.67. (This was to replace worn uniforms and for the bunch of new ones needed for the expanded marching band.) 'he exact figures are available if you want to see them. believe your money will be well spent if some associate of the band hits you for another donation or asks you to buy band calendar -- also you will get to see the ad The Elba Clipper bought on the calendar!
